In view of applicants' response filed 1/25/07 the following still applies

Claims 33-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. As indicated in the previous action remaining uses in claims 27-32 are enabled. Applicants have presented evidence urging sleep disorders can be treated. The references provided are directed to treating circadian rhythm sleep disorders. Amending claim 33 to this class of sleep disorder would overcome the rejection for claims 33 and 34. However subject matter in claims 35-36 have not been addressed and have not otherwise been shown in references provided by the examiner or applicants can be treated with NK-1 antagonists.

Claims 1-12, 16, 25-32 are allowed. The list of commonly assigned applications provided in applicants' response have been reviewed. The subject matter in these cases do not particularly teach or suggest structural makeup of compounds claimed herein.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
